DETAILED ACTION

Election/Restrictions

1. Applicant's election of Group 1, claims 1-18 and 21-24 in the reply filed on 9/22/06 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 112

2. Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a. It is not clear what element is being claimed in regard to which element the third configuration. Please identify the element because the claim is indefinite.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-13 and 15-17, and 21-24 are rejected as best understood under 35 U.S.C. 102(b) as being anticipated by Claycomb et al (6543117).

Art Unit: 3723

Claycomb et al disclose a device having a first member (11) with a slot (25 with a the end of the slot being a stop), a central bore, and threaded connection (35), an adapter (38), a second member (12) with a central bore, a rack (21), a pinion gear (22), and a first engine component (13& 17&19).

Allowable Subject Matter

5. Claims 14 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The 892 form is listing prior art being made of record.
